South African Photovoltaic Industry Association: SAPVIA

I have known and worked with Jade-Sky for a number of years and was impressed with their network of relationships amongst government and industry stakeholders in the renewable energy sector. With their understanding of South Africa's socio-economic agendas and the critical role government and energy's private sector can play in achieving transformation, any serious player wanting to participate in South African renewable energy sector should listen to their advice.

Mike Levington, Vice Chair of SAPVIA
